Zambia	PSI	€ 1.5 million	50%	**	None	None	Iemy Brand	None

*** = Preference will be given to projects that benefit previously disadvantaged groups/areas (black people, coloured people and Indians). Black Economic Empowerment (BEE) entails three core elements: direct empowerment through ownership and control of enterprises and assets, human resource development and employment equity, indirect empowerment through preferential procurement and enterprise development. Examples of BEE are black shareholders, black partners, management training, the use of black suppliers and providing good education for black children
